Understanding International Relations

Syllabus

About Course

The course aims at equipping the learners with the basics of International Relations in order to help them gain insights into the undercurrents of global context. This basic knowledge will enable the learners with the knowledge of the fundamental concepts of International Relations and help them acquire skills of application in analysing power- dynamics, affecting individual states in the International system. The nature of national interests, the decision-making process and the way the relations between nations are negotiated and conducted will be explained.

The Course will truly enable the learners to comprehend the broad global character of the political world, organised into nearly 200 nation states. The learners will be equipped with the ability to understand the relationship between domestic affairs and foreign policy and evidently the pragmatic situation of their own individual lives in the present world milieu.

Learners may gain the skills to analyse the current international affairs and may inculcate the skills in global leadership and decision-making.

Course Outcome
