

28th July 2021

Respected,  
Rev. Dr. Praveen Martis, S.J.  
St. Aloysius College (Autonomous)

Subject: Collaboration between St. Aloysius College (Autonomous) in InUnity Mangaluru.

SHINE Foundation in partnership with Karnataka Digital Economy Mission (KDEM) and Global Alliance for Mass Entrepreneurship (GAME), is organizing a 6 months cohort InUnity Mangaluru in order to nurture a sustainable entrepreneurial ecosystem in Mangaluru. The program focuses on bringing together key stakeholders of the region and students from the institutions to collectively build solutions that can impact the region. This effort is inline with the nation's New Education Policy 2020 .

The Cohort, spanning over 6 months, shall aim at identifying 50 potential entrepreneurs from the region and challenging them with problems of the region whose solutions can have lasting positive impact on the lives of the people from the region. These solutions will be progressively mentored by sector specific organisations and esteemed mentors from the industries to launch as a sustainable business/product.

To make this event successful, we would like your Institution's support in:

- Encouraging and shortlisting 100 students with an inclination to solve problems from your institution for the talent selection bootcamp
- Provide access to institutional infrastructure and resources to your own students

As collaborator we shall,

- Mentor the selected students with right mentors and give access to industries
- Execute the entire program and provide the institution with the necessary data that can be used by the department for NIRF, ARIIA, IIC rankings and also for accreditation usage

In accordance with above mentioned points the organizer of the program InUnity Mangaluru and representative of the St. Aloysius College (Autonomous) hereby agree to support each other for the success of the program that shall benefit the student community and the region positively.
