There was an overall positive feedback on the talk, benefiting the students who would be part of the corporate world in near future.

Report on the Students Visit to Palliative Care Center

Day and Date of the Visit: Saturday, 20/05/2023

Place: Father Mullers Palliative Care Center, Deralakatte

Program: Practical Session and Exposure to Palliative Care for Students of Online Geriatric Course.

Objectives of the Visit:

To understand how palliative care is provided at an institutional setting. To understand the needs and issues of

palliative care patients through exposure and interaction.

Description

The UG Department of Social Work took 25 students of its online geriatric course to a visit to Father Mullers Palliative Care Center at Deralakatte on Saturday, 20th May 2023 from 12.30 pm to 4.30pm. Ms. Kavya, faculty of the department accompanied the students for the visit.

The visit included a one-hour theory session on Palliative Care and a visit to the patient's ward. The theory class covered topics like Geriatric Care, Introduction to Palliative Care, Importance of Palliative Care, and Palliative Care Services at Father Mullers Palliative Care Center.

The students were then taken to the ward by Dr. Nishal who showed how patients were taken care by the nurses and staff, how their day-to-day needs were taken care and

how various problems faced by them were addressed by the hospital staff.

The students were asked to note down their observations and submit a report of the visit to the department by the second week of June 2023.

Focus Group Discussions for Community Organisation

Guest Talk on "Focus Group Discussions for Community Organisation" by UG Department of Social Work on 03 August 2023 at Gelge Hall, St Aloysius College. The session was moderated by Ms. Coral Jean Rego, II year BA (SW) student. Ms. Savitha D'Souza, Head of UG Department of Social Work accompanied Mr. Kishore Attavara on to the dais. Sr. Lynda led the prayer. Mr. Kishore Attavara began the session by introducing himself, he spoke about his vast experience organizing communities in North Karnataka when he was working with the Azim Premji Foundation. He spoke about the emancipatory potential of group work for empowering communities. Issues of oppression, including caste and religion, were explored during the talk. He spoke about how social workers need to work around caste and religion while organizing focus group discussions. He gave examples of how surnames can be used to identify castes and power centers in communities. He asked the students for their surnames and identified their caste, clan and domicile. Through this, he showed the students that it was possible to know the caste location of people through their surnames. He also said that most of the social work interventions like group work and community organization take place within the bureaucratic parameters and the support of government officials and local politicians is crucial for this. He gave examples for this of his work in the Ullal CMC.

The second half of the session was interactive, wherein he took questions from the students. Several II year students shared their

Alumni Talk - My Journey into the Recruitment world

The Department of Business Administration organised an Alumni talk on 18th January, 2024. We had the privilege of hosting an esteemed resource person, Ms. Karen Annette Dsouza, who is a Senior talent acquisition specialist in Bottomline, Bengaluru. Ms. Karen shared her profound insights and extensive knowledge on the subject "My Journey into the Recruitment world". The talk took place in the L.F. Rasquinha Hall, LCRI at 1.30 PM. The presence of Ms Preema Tauro, the staff incharge and the students of the department worked to ensure the success of this event. The Alumni talk proved to be an invaluable experience, providing profound insights and invaluable information to the students. A total of 265 students attended this talk.

REPORT ON
“ROAD AHEAD IN PROFESSIONAL EDUCATION”
-GUEST TALK
on
1st FEBRUARY 2024

Department of Business Administration organized a guest talk on the topic “Road ahead in professional education” on 1st February 2024 in LCRI hall. 220 students from the Professional and Analytical batches attended the talk.

The discussion centered on a few main ideas regarding contemporary notions of education, skill acquisition, and improving students' future educational plans. The talk commenced at 9:55 am with the welcome address by Ms Gauthami Shetty and with the presence of all the dignitaries Ms Claret Pereira Dean- HOD department of Business Administration, Ms. Sahana S, the staff convener and the guest speaker on the dais Ms. Teresa Jacobs, Executive Director -Learning ISDC, UK.

Ms. Jacobs emphasizes the importance of professional education and skills acquisition to enhance students' future learning plans. She further educates us on the subject of analytics and its emerging fields of study. She focused on the importance of specializing in a particular field to gain an edge, than attempting to be proficient in everything. She also highlighted on the significance of gaining work experience prior to pursuing a master's degree.

The talk broadened our knowledge of how AI has impacted students' minds and educational institutions. While AI has its drawbacks, it also has its advantages when it comes to workplaces. AI's ability to streamline information, technology and other processes helps to create an easier work-life balance for employees. Finally, Ms. Teresa emphasizes the beauty of failure as a springboard to success.

BBA Workshop

The Department of Business Administration organized a workshop on Photography and Videography Skills on March 28, 2024 as a part of Alumni Interaction Series. Mr. Joel Shaman, the brand ambassador of Nikon India and Mr Samuel Corda were the resource persons

Report on ‘Job Preparation Training’ Workshop

On 15th and 18th of April, 2024, School of Business and Management in collaboration with Placement Cell organized a two-day workshop on ‘Job Preparation and Training’ for the final year students of Bachelor of Business Administration (BBA). The guest speaker for the session was Ms. Flona Soans, Dean of Training, Placement and Career Guidance. Ms. Sahana S and Ms. Sowmya T coordinated the workshop. 240 students attended the session.

During the workshop, Ms. Flona stressed on the significance of crafting effective resume or curriculum vitae (CV) and provided hands-on guidance on resume or curriculum vitae (CV) development. She elucidated the distinction between resume and curriculum vitae (CV) and answered student’s queries regarding resume or curriculum vitae (CV) preparation. The workshop also featured interactive elements such as group discussions (GD) and mock interviews, designed to simulate real-world job application scenarios.

Students actively participated in the two group discussion (GD) rounds conducted, engaging in spirited debates on topics ranging from the feasibility of mandatory military training for Indian youth to the pursuit of perfection versus completion. Following the group discussion (GD) sessions, Ms. Flona facilitated a debriefing where students analyzed the demonstrated skills and identified areas for improvement.

The highlight of the workshop was the mock interview session, where a student volunteer faced questions from Ms. Flona, role-playing as a Human Resources Manager. The interview covered various aspects including skills assessment, salary expectations, and stress management techniques, providing valuable insights into the dynamics of job interviews.

In the concluding segment, Ms. Flona dedicated the last 15 minutes to address student queries, offering further clarity on job application procedures and career development strategies.

Overall, the workshop served as a pivotal learning experience, equipping students with practical insights into the job application process and preparing them for future career endeavors.

Here are few snap shots taken from the ‘Job Preparation Training’ session,

Workshop on Instagram for Branding

The Department of PG Studies and Research in Journalism and Mass Communication organized a workshop on January 17, 2024. An activity-based interactive workshop was delivered by Mr. Kiran Shenoy, Content Creator, on topic Instagram for branding

The Department of Political Science of St Aloysius College (Autonomous) Mangaluru, organised a lecture entitled “Introduction to Ethnographic Research Methods and case study of Disaster recovery

in Sri Lanka” on January 9th, 2024 in the Auditorium (AR 201), Arrupe block. It was delivered by Dr Elizabeth Bittel, Assistant Professor of Sociology/ Anthropology Department at SUNY Cortland and a visiting scholar in the South Asia Program at Cornell University. Dr Rose Veera D’Souza welcomed the gathering consisting of the third year Political Science students. Miss Khushi Kumari introduced the speaker of the session.

Having experienced the horrors of disasters and the trepidation that accompanies it, Dr Elizabeth Bittel found interest and inspiration to learn environment sociology during her college days. She was also inspired by the measures taken by the community of Florida to manage the after effects of the Tsunami. Defining ethnography as a research method, understanding research ethics and research positionality and understanding ethnographic research through a case study on disaster recovery encompassed the objectives of the session conducted by Dr Bittel. Dr Elizabeth explained about the ‘Praxis Oriented Scholarship’ where the term Praxis refers to a particular philosophy used to guide and conduct research. The researchers involved in the Praxis oriented research involve the community or group under study in the research process. She also taught the students to identify or spot a sociological research question through simplified and easy instructions. In relation to the methods of sociological research, Dr Elizabeth explained the quantitative and qualitative research methods. Talking about the ethnographic research method, she explained that it combined both quantitative and qualitative methods. Through this explanation, we understood that the ethnographic method of research is systematic, scientific and rigorous; flexible, non-linear or iterative process; ethical, labour-intensive and time-intensive and limited in generalizability. She informed the students about the research ethics (to which the American Researchers are legally bound). It includes: informing the respondents about the potential harm in participating in the research, having informed consent and no deception. She also explained how a researcher’s positionality changes when there is a change in the social setting or context. People’s perceptions are

bound to change as there is a change in the setting where the research is conducted.

The spotlight of this session was occupied by the case study on Tsunami in Sri Lanka in the year 2008.

Dr Bittel’s interest lies in the post-emergency stage and in noting how the communities recover from

the drastic effects of the disaster. She explained the case study by defining four key concepts, i.e., Disaster, Community, Recovery and Social capital. The 2008 Tsunami of Sri Lanka took place with the Eelam war in its backdrop. Dr Bittel has spent years experiencing the culture, practices and social setting of Sri Lanka and observed the pattern of recovery between the two communities of Sri Lanka post the 2008 Tsunami. While the Thiruchendur community didn't make a great recovery, the Kattankudy community made impressive recovery in the same time period. Through this case study, Dr Bittel helped us realise the role and importance of communities in recovery stage of the disaster management. Dr Bittel works with the aim of improving the condition and assisting the people in building a more equitable and just society. The session was accompanied by a Q and A session where Dr Bittel answered the questioned posed by the students to the best of her knowledge and in an insightful manner.

Miss Jane Gonsalves proposed the vote of thanks.

Organizes

A WORKSHOP ON RESEARCH METHODOLOGY

 Friday,
January 19, 2024

 10:50 AM to 12:35 PM

 **SANIDHYA HALL,
ST. ALOYSIUS COLLEGE
(AUTONOMOUS) MANGALORE**

DR. ELIZABETH BITTEL
Assistant Professor of Sociology in the
Sociology/Anthropology Department at
SUNY Cortland (State University of
New York College)

Talk on Create a Life Map: A Psychologist's Narrative

The Department of Political Science organised a talk by Dr. Shalini Aiyappa on “Create a Life Map: A Psychologist's Narrative” on 12 May, 2023. It was a part of the Department's initiative to help the students understand themselves and to enable them to manage their student and personal lives efficiently. Dr. Rose Veera DSouza, the Head of the Department of Political Science, introduced the speaker to the audience – Dr. Shalini, the Head of the Department of Psychology, St Aloysius College (Autonomous), Mangaluru. Dr. Shalini began her talk with an intriguing quote about the space between the stimulus and response, in which an individual has the power to make a choice. That space offers one the power to choose how to respond to a given stimulus. One must make a choice after deliberation in order to have a mindful, meaningful and purposeful existence. The speaker pointed out the challenges the current generation faces while growing up in the era of advanced technology and social media. She cited examples from daily life to portray how social media and the culture of messaging have the power to hamper human relations, in the absence of face-to-face conversations. Dr. Shalini explained how we are fast getting caught in the “not enough culture”, and how we end up stuck in a loop. She also highlighted that increased exposure to and use of technology has significantly reduced our attention span. She told the audience that we possess the power to wire our brains the way we want and become the person we desire to become; the brain is malleable. The choice that we make is what becomes of us. She advised the students to grow their inner strength and to build resilience, which will help in healing. Negative emotions disable one from seeing the opportunities that are available around. She also told the students to identify their signature strengths and to develop them. Dr. Shalini spoke on the importance of being in the moment; to practise mindfulness. She pointed out the role perception plays in our lives. Our repetitive thoughts will cause our brains to believe them, hence one needs to reframe the way one sees a situation. She concluded stating that we need to practise acceptance of ourselves, and enjoy minimalism and simplicity. The speaker Dr. Shalini Aiyappa was given a sapling as a gesture of gratitude by Ms. Maria Shaila DSouza, faculty of Political Science. Vidhula K L of III BA gave a response to the talk on behalf of the students.

Workshop on Case History Taking

Date: November 2023

Organized by: The Department of Psychology

Resource Person: Nikita Rebello

Report:

Addressing the critical component of case history taking, the Department of Psychology recently held a Workshop on Case History Taking, as part of the academic programme. Seventy-three students attended the workshop in total and gained significant insights and knowledge.

The workshop featured a lecture by Ms. Nikita Rebello, a Research scholar, who skillfully navigated the intricate details of Case History Taking (NIMHANS FORMAT), covering clinical procedures, ethical considerations, and the systematic approach to be followed during this process. The speaker's lecture on the NIMHANS format for obtaining case histories covered various essential components such as Socio-Demographic Details, Informants Information, referral information, Presenting chief complaints, History of presenting illness, Negative history, Past history, family and personal history, Premorbid personality, and The Mental Status Examination. Throughout the session, Ms. Rebello effectively engaged the students with real-life examples drawn from her own experiences.

To summarize, the workshop successfully met its objectives by providing students with a thorough understanding of case history. This informative event not only enhanced our comprehension of Case History Taking but also underscored its significant role in the field.

Workshop on PLAY

Date: 2nd January 2024

Organized by: The Department of Psychology

Resource Person: Ms. Marlene D'Souza

Report:

The Department of Psychology organized a workshop on "PLAY" as an integral part of the academic curriculum, aiming to provide students with insightful knowledge about the different facets and advantages of play. A group of 23 students were gathered for the workshop and derived significant benefits from the event.

The workshop was organised with great detail, and led by Ms. Marlene D'Souza, Consultant Clinical Psychologist currently working in Dubai.

The workshop commenced with a simple spiral activity inspired by Waldorf education, encouraging participants to observe and share their energy with others, this was followed with engaging activities including a Creative Introduction, recollection of a poem, a drawing exercise depicting strengths and weaknesses as superheroes and villains, a Target Game, a lecture on the different stages of play, crafting transition toys with clay and paper puppets, and group skit performances.

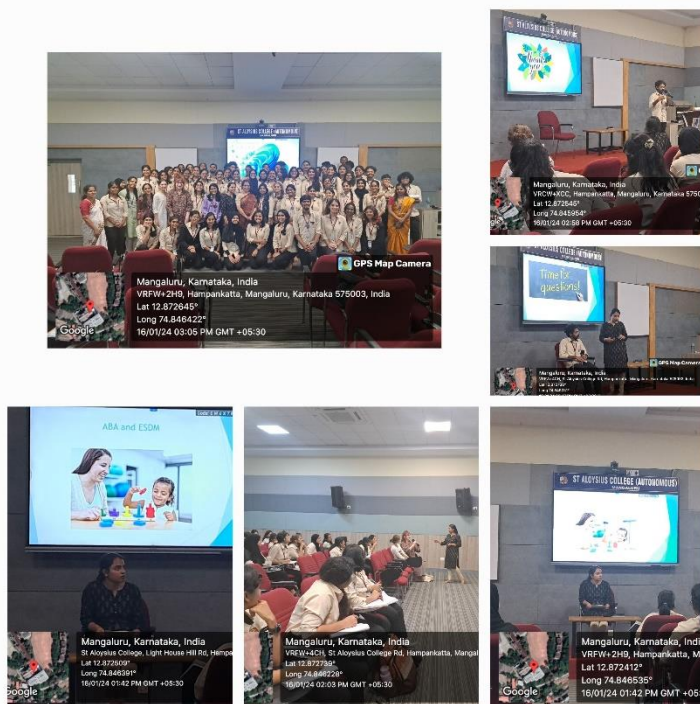

Throughout the workshop, Ms. D'Souza emphasized the significance of play by quoting, "Man is most nearly himself when he achieves the seriousness of a child at play." The session provided profound insights into the idea that play is not merely a source of relaxation but a crucial learning tool for children to understand their environment, themselves, and explore relationships as well as how it connects children to themselves and to the world. The workshop highlighted the stages of childhood, from early childhood to adolescence, during which children engage in play with varying purposes such as understanding boundaries, expressing emotions, forming attachments, exploring identity, and building confidence.

The workshop successfully achieved its objectives of providing students with a comprehensive understanding of how play is more than just a relaxing activity and the role it plays in child's life i.e., offering students a comprehensive understanding of play beyond its recreational aspects. It underscored the vital role 'play' plays in a child's life, contributing to their learning and personality development. In conclusion, the "PLAY" workshop proved to be an enlightening and informative event that not only deepened our theoretical understanding of play but also provided practical experiences of play and its impact through activities, and prompted introspection into our own

childhoods, revealing the profound impact of play on each individual student. Thus, the program stands as a valuable addition to our academic knowledge and life as a whole.

It focused on ABA (applied behavior analysis) which is a therapeutic technique that helps in understanding and improving behaviors through systematic interventions, often used for individuals with autism spectrum disorder (ASD) and on ESDM (Early Start Denver Model) is an early intervention program designed to support toddlers and young children with ASD, emphasizing social interaction, communication, and developmental skills within natural settings. Through this session we learned how to enhance the lives of individuals with Autism through tailored strategies and interventions. The session benefitted around 70 students.

Report on Hypnosis, as an Altered State of Consciousness'

Hypnosis has long intrigued both researchers and the general public alike, offering a fascinating glimpse into the capacity of the human mind. On the 26th of February, 2024, the Department of Psychology at St. Aloysius (Deemed To Be University) organized a session on hypnosis, providing an opportunity for students to delve into this intriguing phenomenon.

The session commenced with a quick introduction followed by Dr. Shishir Kumar, a hypnotherapist, providing an overview of the session's objectives. Dr. Shishir elaborated on the history, meanings, and definitions of hypnosis as an altered state of consciousness, explaining various stages and techniques involved.

As the session progressed, Dr. Shishir guided the participants through a series of induction techniques, gradually inducing a state of heightened suggestibility and receptivity. A demonstration of a simple hypnosis technique involving a student showcased the practical application of the concept discussed.

During the interaction round, students engaged Dr. Shishir with insightful questions, fostering a deeper understanding of hypnosis.

The session concluded with a vote of thanks delivered by Ms. Iola Dmello, expressing gratitude to Dr. Shishir for his enlightening insights. A group photograph captured the memorable experience, marking the end of an enriching exploration into the realm of hypnosis.

Two-day hands-on workshop on Membrane Biochemistry

The postgraduate department of Biochemistry of St Aloysius college Mangalore organized a two-Day national level workshop on Membrane biochemistry (Under the DBT-BUILDER scheme) on the 10th and 11th of August 2023.

Day 1

The event began with the inaugural function at the Robert Sequeira Hall of the LCRI block of the college where all the participants and faculty were welcomed with a Prayer song and a welcome speech. The participants included students from colleges such as KMC, St Agnes, PA college and UG section of St Aloysius college. The students of PG biochemistry also participated in this workshop

Dr Lyned Lasrado, Dr Cletus D'souza, Dr Remya Varadarajan were the main guests on the dais. The rest of the faculty staff Dr Ambarish CN, Dr Pallavi Baliga, and Dr Swarnalatha B.N were also present for the inaugural function.

After the inaugural, Mr Kalpesh Patel, Market development manager – centrifugation Beckman coulter life sciences India Pvt Ltd who was the guest speaker of the day explained the process of ultracentrifugation, its types and how it was different from other types of centrifuges.

In the next session, Dr Kalpesh along with Dr Cletus Gave a hands-on demonstration on how to use the Ultracentrifuge by using separation of LDL and HDL as an example. This concluded day one of the Workshop.

Day 2

The second day began in the department Lab at 9:00 Am. Dr Kalpesh and Dr Cletus allowed the participants to carry out the ultracentrifugation. The participants were taught sample preparation and gradient making for ultra-centrifugation. They were also allowed to perform ultra centrifugations for different types of samples and perform confirmatory tests and visualization techniques to confirm separation.

The day ended with the valedictory ceremony where the participants shared their experience and were thanked by the staff for participating in the workshop. Feedback was taken and e certificates were distributed to all the participants.

Inaugural session of the Bionex association

On August 29, 2023, at 3 p.m., the department of postgraduate studies and Research in Biochemistry hosted the inaugural session of the Bionex association in the Robert Sequeira Hall.

The session began with the ceremonial lighting of the lamp by the chief guest and keynote speaker Dr Shamprasad Varija Raghu (Associate professor division of neuroscience Yenepoya research centre), the department HOD Dr Lyned Lasrado, the association president Dr Pallavi Baliga, and Student Association secretary Ms Michele Pereira. Dr. Pallavi Baliga spoke on how the Bionex Association helps students do more than just academics in the classroom. Ms Michelle, the association's secretary, then read the report on the activities of the previous year. The guest and keynote speaker delivered a talk on the topic 'Fluorescent proteins and its applications in scientific research'. He discussed how fluorescent proteins aided in neuroscience research and the scope for neuroscience research after earning an M.Sc. in Biochemistry. The session was open to the public. The workshop was attended by the PG biochemistry faculty as well as students from the PG biochemistry and biotechnology departments.

The department of post graduate studies and Research in Biochemistry held the inaugural session of the Bionex association on 29 August 2023 at 3 pm in the Robert Sequeira Hall.

The chief guest and keynote speaker Dr Shamprasad Varija Raghu (Associate professor division of neuroscience Yenepoya research centre) along with the HOD of the department Dr Lyned Lasrado, the association president Dr Pallavi Baliga and Student Association secretary Ms Michele Pereira began the session with the ceremonial lighting of the lamp. For the first half of the session, Dr Pallavi Baliga Spoke about what the Bionex Association was about and how it helps the students do more than just academics in the classroom. Ms Michelle the secretary of the association then read the report of the activities held in the previous year of the association. The stage was then handed over to the chief guest and keynote speaker for the second half of the session on the topic 'Fluorescent proteins and its applications in scientific research'. He spoke about how fluorescent proteins were being developed to help in neuroscience and spoke about the scope of neuroscience after M.Sc. Biochemistry. The session was open to all. The faculty of PG biochemistry, students from the PG department of biochemistry and biotechnology attended the session.

Event Report: Guest Talk on Career Options in Bioinformatics

Date: January 30, 2024

Time: 3.00-4.00 pm

Venue: Magis Hall, SAC

Organizer: Department of Postgraduate Studies & Research in Biochemistry

The Postgraduate Studies & Research in Biochemistry department organized a guest talk on January 30, 2024, at Magis Hall, St.Aloysius College, to enlighten students about career prospects in bioinformatics. Dr. Niyas Rehman, an esteemed Assistant Professor from Yenepoya (Deemed to be University), Mangalore, served as the resource person for the event.

The session commenced with a warm welcome extended to Dr. Rehman by the convenor, Dr. Remya Varadarajan. Dr. Rehman, a seasoned professional in the field, delved into the intricacies of bioinformatics and its wide array of career opportunities. He provided valuable insights into the interdisciplinary nature of bioinformatics, emphasizing its pivotal role in modern biological research. Throughout the talk, Dr. Rehman elucidated various career

pathways within bioinformatics, ranging from research and academia to industry and healthcare. He highlighted the significance of computational tools and techniques in deciphering biological data, thereby addressing pressing issues in areas such as genomics, proteomics, and drug discovery.

The interactive session saw enthusiastic participation from the audience, comprising of first year and second year M.Sc Biochemistry & M.Sc Biotechnology students and faculty members eager to explore the realm of bioinformatics. Attendees actively engaged with Dr. Rehman, seeking guidance on academic pursuits, skill development, and emerging trends in the field.

In conclusion, the guest talk on career options in bioinformatics proved to be an enriching experience for all participants. Dr. Rehman's expertise and insights provided invaluable guidance to aspiring professionals, paving the way for a promising future in the dynamic field of bioinformatics. Dr. Swarnalatha BN, HOD In-charge extended her heartfelt gratitude to Dr. Niyas Rehman for his enlightening discourse.

WORKSHOP ON “ESSENTIALS OF BIOSTATISTICS AND BIOINFORMATICS “

Date: [5,6,7- March 2024]

Location: [Sanidhya hall & LCRI Computer Lab]

The Workshop on “ESSENTIALS OF BIOSTATISTICS AND BIOINFORMATICS “ was held on 5th, 6th & 7th - March 2024, organized by Post Graduate Department of Studies and Research in Biochemistry, St. Aloysius (Deemed to be University) provided a comprehensive overview and hands-on workshop in the fields of bioinformatics and biostatistics. The resource persons for the workshop were Dr. Ranajit Das, Associate Professor, Yenepoya Research Center, Yenepoya (Deemed to be University), Mangaluru for 5th and 6th March, and Dr. Sudeep Ghate, Scientist G II, NITTE (Deemed to be University), Deralakatte, Mangaluru. The workshop aimed to bridge the gap between theoretical knowledge and practical application, offering participants a platform to enhance their skills and understanding of these crucial disciplines in life sciences. A total of 60 participants, including faculty and students from the Post Graduate Department of Biochemistry were benefitted from the workshop.

Objectives:

- To introduce participants to the fundamental concepts of bioinformatics and biostatistics.
- To provide hands-on training in widely used tools and software in the field.
- To foster collaboration and networking among participants and experts in the field.
- To discuss the latest advancements and applications in bioinformatics and biostatistics.

Outcomes:

- Hands-on experience with popular tools and software.
- Enhanced collaboration and networking among participants.
- Exposure to real-life applications and case studies.
- Increased awareness of emerging trends in the field.

The Workshop on “ESSENTIALS OF BIOSTATISTICS AND BIOINFORMATICS “successfully achieved its objectives of providing a platform for learning, collaboration, and skill enhancement. The positive feedback from participants highlights the demand for such events in the life sciences community. The organizers aim to build on this success and continue organizing similar workshops to further contribute to the advancement of bioinformatics and biostatistics.

Regards:

Dr SWARNALATHA B N
Incharge HOD
Department of PG Biochemistry

EVENT REPORT

HDL, LDL, and Cardiovascular/Alzheimer's Diseases: The Good, The Bad, and The Ugly

Date: March 13

Time: 10:00 AM to 11:00 AM

Organizer: Department of PG Biochemistry

Guest Speaker: Dr. Vasanthy Narayanaswami

Professor of Biochemistry,

California State University,

Cardiovascular and Alzheimer's Disease Researcher,

Fellow of the American Heart Association (FAHA),

Advocate for Women's Leadership and Equity in STEMM Fields.

Event Overview:

The guest talk titled "HDL, LDL, and Cardiovascular/Alzheimer's Diseases: The Good, The Bad, and The Ugly" was organized by the Department of PG Biochemistry on March 13. The event commenced with a prayer song performed by Vaishnavi and team, followed by the emcee duties carried out by Sonali. Ashok welcomed the gathering, followed by Shreya providing a brief introduction to the esteemed resource person, Dr. Vasanthy Narayanaswami.

Welcome and Introduction:

Dr. Remya Varadarajan warmly welcomed the guest with a plantlet and Dr Cletus gave a brief about the guest. Dr. Narayanaswami then took the stage to share insights into Alzheimer's disease, the roles of HDL, LDL, and VLDL, as well as their mechanisms of action. She also shared experiences from her research endeavors, enriching the audience with practical knowledge in the field.

Presentation and Interaction:

Dr. Narayanaswami commenced the session by delving into the fundamental concepts of high-density lipoprotein (HDL), low-density lipoprotein (LDL), and very-low-density lipoprotein (VLDL), elucidating their respective roles in lipid transport and metabolism within the body. She highlighted how these lipoproteins, often referred to as "good" (HDL) and "bad" (LDL) cholesterol, play crucial roles in maintaining physiological balance and how their dysregulation can contribute to the pathogenesis of cardiovascular diseases.

Moving forward, Dr. Narayanaswami transitioned into discussing the intricate interplay between lipoproteins and Alzheimer's disease, shedding light on emerging research findings and hypotheses linking lipid metabolism to the onset and progression of this neurodegenerative disorder. She provided insights into the potential mechanisms through which lipoproteins, particularly LDL and VLDL, may impact brain health and contribute to Alzheimer's pathology, emphasizing the need for further investigation in this area.

Throughout the session, Dr. Narayanaswami shared valuable insights gleaned from her own research experiences, providing real-world examples and case studies to illustrate key concepts and findings. Her expertise and depth of knowledge resonated with the audience, sparking engaging discussions and prompting thought-provoking questions from students and faculty members alike.

Guest-Student Interaction

The interactive nature of the session fostered a dynamic exchange of ideas, allowing attendees to deepen their understanding of the complex relationships between lipoproteins and disease pathogenesis. Dr. Narayanaswami's ability to distill complex scientific concepts into accessible information ensured that participants of all backgrounds could engage meaningfully with the material presented.

Conclusion:

As the session drew to a close, a vote of thanks was delivered, expressing gratitude to Dr. Vasanthi Narayanaswami for her insightful presentation and valuable contributions to the event. The guest talk concluded on a positive note, leaving the audience enlightened and inspired by the knowledge shared.

Overall, the guest talk proved to be an enriching experience, providing attendees with a deeper understanding of the complex relationship between lipoproteins and cardiovascular/Alzheimer's diseases. The event served as a platform for academic exchange and learning, contributing to the intellectual growth of all participants.

After the end of the session the teachers from many departments interacted with resource person sharing Taught and insights

A REPORT ON INTERNATIONAL WEBINAR CONDUCTED BY PG BIOCHEMISTRY

The postgraduate studies in Biochemistry organized two days international webinar “**NEUROINFLAMMATION AND REGENERATIVE MEDICINE**” on 19-03-2024 and 20-03-2024 respectively. On day 1 DR. YOGISH SOMAYAJI T, Post-doctoral Research Associate, Institute of Regenerative Medicine, Texas A&M University was the resource person who spoke on the topic “**Neuroinflammation and signaling cascade**” which was held in Sanidhya Hall at 11.00 am. The session included an overview of neuroinflammation and applications of neuroinflammation and signaling cascade.

On day 2 the webinar was held in the department of PG Biochemistry at 11.00 am. DR. MADHU LN, Research Scientist, Institute of Regenerative Medicine, Texas A&M University was the resource person who spoke on the topic “**Stem cell derived extracellular vesicles in regenerative medicine**”. A total of 196 participants attended the webinar. Both days the webinar was very informative and interactive. The Head of the department Dr. Swarnalatha B.N and all the faculty members were present for the webinar. The session was winded up at 12.30 pm with the distribution of E-certificates.

National Science Day 2024

National Science Day 2024 was observed on February 28, 2024 by the Departments of Sciences in Fr L F Rasquinha Hall. Dr. C R Chandrashekar, renowned Psychiatrist from NIMHANS, Bengaluru and Padmashree awardee 2024, was honored on this occasion. The Chief Guest, Dr. Ranjith Das, an eminent Population Geneticist and Associate Professor at Yenepoya (Deemed to be University), delivered the keynote address on "Genomics in Healthcare." About 450 students participated and winners of Innovace Science Competitions and Voice of Xavier were awarded prizes and the overall championship

Guest Talk on Gyrochronology of Stars

The Department of Physics, St Aloysius College (Autonomous), Mangalore, 14 August, 2023 in Robert Sequeira hall,LCRI at 9am. organised a lecture on the topic "Gyrochronology, A Route to the Ages of Stars" in Robert Sequeira Hall of the College. Dr Sydney A. Barnes, an international scientist of Leibniz Institute of Astronomy, Germany, delivered a scientific lecture. International scientist from "Leibniz Institute for Astrophysics-, Potsdam, Germany. He addressed students and staff members from PUC, UG and PG sections on the topic " Gyrochronology: A route to the ages of Stars". Talk ended with interactive session wherein students and staff members clarified their doubts.

National Seminar-Physical Sciences

A two-day national conference of Departments under Physical Sciences was held on March 1-2, 2024 at L.F. Rasquinha Hall. Dr Navakanta Bhat, Senior Scientist,

Professor and Dean of the Department of Interdisciplinary Science, Indian Institute of Science, Bangalore, inaugurated and spoke on the development and uses of

nanotechnology through the scientific topic 'Creating Intelligence and Smartness Using Nanoelectronics'. A total of 5 scientific lectures were organized in the conference.

Mr. Abdul Karim, Director, Edutech Solutions, Mysore, informed about the current developments on the topic 'Animation and Multimedia'. Mr. Lanvin Lobo, Director Data Science and Machine Learning Mresult Services Pvt. Ltd., Mangalore shed light on the current affairs on the topic 'Data Science and Machine Learning'.

Dr Susantha Samajdar, Chief Scientific Officer, Arigene Oncology Ltd., Bangalore spoke on 'Unlocking Tomorrow's Cures' and highlighted the contribution of chemistry to health and science. Dr Vasudeva, Senior Professor, Department of Information Science and Engineering, N.M.A.M. Nitte Technical Institute delivered a lecture on 'Mathematics in Modern Computer Technology'.

Number Theory and its Application to Cryptography

On the occasion of the 110th Birth Memorial celebration of Prof. K.A. Krishnamurthy, the department of UG & PG Mathematics organized a seminar on the topic "Number Theory and its Application to Cryptography" on 23rd August 2023. The resource person was Dr John Sherra, Former Associate Professor, Department of Mathematics, St Aloysius College (Autonomous). As a part of the event, three competitions were organized for UG & PG Mathematics students. Abstract Art, in which 2 made a team, Escape Room with 3 members in a team and Poster making with 2member team. A total of 29 teams participated in the competitions. Winners were awarded with cash prizes and certificates.

115 students participated in the seminar. Ms Anisha Mathias from UG Mathematics department compered the programme. Ms Anupriya Shetty, HOD of PG Mathematics welcomed the gathering. Ms Priya Monteiro, HOD of UG Mathematics introduced the guest to the audience. Dr John Sherra spoke on the life and achievements of Prof. K. A. Krishnamurthy. Ms Apporva Shetty read the names of prize winners. Dr Denis Fernandes, Director of Arrupe block, gave his presidential remarks, congratulated, and encouraged the department to organize more such events. He also spoke on the importance of numbers through history and cryptography in various
